25X1

1. In reply to reference (A), and to supplement reference (B), enclosed herewith are Specifications MIL-P-116B; MIL-D-3464; MIL-S-4461 (USAF); JAN-B-121; JAN-C-149; and UU-C-843. The qualified products list (QPL-149-4) for Type II, Strippable Protective Compound, is also enclosed. It is recommended that your office obtain the following technical manual which is the most applicable literature available to illustrate and instruct on burial packaging methods:

TM 38-230, Titled "Preservation, Packaging, and Packing of Military Supplies and Equipment," available at U. S. Government Printing Office for \$1.75.

2. TSS/MD agrees to furnish your office with two (2) prototypes of the fiberglass ammunition boxes, and two (2) prototypes of the stainless steel burial container. It is anticipated that this can be accomplished by 1 March.
